Dear Imran Shanawaz,

Congratulations! Your application for admission to graduate study at WPI has been carefully reviewed and we are pleased to offer you admission to the Full-time, on campus graduate program leading to the Master of Science in Information Technology effective the Fall 2023 semester.

We are also pleased to notify you that you have been awarded a partial scholarship in the amount of $2000. Upon registering for courses this award will be applied to your student account. Please be advised that this award may only be applied towards tuition and cannot, for instance, be redeemed for cash to cover such items as living expenses. Scholarships are offered solely at the time of acceptance based on academic merit.

Thank you for your interest in a Graduate Assistantship (GA). Upon your arrival to campus you will be contacted about the process of applying for a position. International students are allowed to work on campus up to twenty hours per week but your number of hours and schedule will depend on the position. The GA cannot be used towards the funds required to obtain your I20.

A $500.00 non-refundable tuition deposit is required of all students, which will also serve as your formal acceptance of your admission offer. To accept this offer of admission, please complete the Admitted Student Response Form, which can be found on your application status page.

We would appreciate hearing from you at your earliest convenience or before June 20, 2023.

Once you have paid the tuition deposit, you will be able to start the I-20 process by completing the International Student Form for Issuance of I-20 or DS-2019. This will be located in the 'Forms' section, which is located at the bottom of your application status page.

Once you have submitted the International Student Form for Issuance of I-20 or DS-2019 form, you will receive an email with instructions on how to submit the Proof of Financial Resources Form & Transfer Verification Form.

All entering international graduate business students are required to take an English speaking test during their first week at WPI. This test is administered by WPI's International Students office. The results of this test will determine if you will be required to participate in a first semester English as a Second Language (ESL) course.

We look forward to having you join us! Should you choose to defer admission (which requires the approval of the Director of the Business School) or decline your offer of acceptance, please let us know by completing the Admitted Student Response Form at your earliest convenience.

Please feel free to contact us at (508) 831-4665 or business@wpi.edu if you have any questions. We look forward to welcoming you to WPI!

Congratulations!

  ii. $500.

  b. Where you have been refused a visa but have already commenced the program the amount of refund payable is the unspent portion of the tuition fees. No refund is payable for non-tuition fees. We encourage you to use Flywire to make your payments. Flywire allows you to make payments securely from any country or bank, saving you bank fees and exchange rates. See www.saskpolytech.ca/programs-and-courses/international/international-payments.aspx for more information and other options. Receipts are sent to your Sask Polytech email account within 5 business days. Your Flywire receipt can also be used as proof of payment.

TUITION AND FEES
Outstanding tuition and fees must be paid on or before the start date of your program. WITHDRAWALS
Now that you have been offered a seat, should you decide to withdraw please complete our online withdrawal form at https://saskpolytech.ca/admissions/tuition-and-fees/international-withdrawals-forms.aspx. This will allow Sask Polytech to offer the seat to the next qualified applicant. If you withdraw you will be required to reapply should you be interested in attending Sask Polytech in the future.

Once your payment is received, if your program withdrawal is a result of a study permit being refused, it will be returned to you less a $200 administrative fee. If you choose to withdraw for other reasons after you have paid your non-refundable deposit, it will not be returned to you. Our goal is to provide a quality learning experience to students committed to joining the Sask Polytech community.

Remitting a significant amount of tuition and fees in advance as a non-refundable deposit demonstrates your commitment to attend and helps Sask Polytech ensure prospective qualified students are able to secure available program spaces.

For detailed information about fees and refunds, see Tuition and Fees Policy 1214 (Procedures Section 3) at www.saskpolytech.ca/about/about-us/policies-procedures.aspx.

You have a statutory right to cancel within 14 days of accepting your offer. To exercise this right, you must inform the University of your decision by a clear statement (e.g. an email or a letter). Please refer to clause 3.5 of the terms and conditions for further information on your right to cancel.

This conditional offer provides no guarantee that a CAS will be assigned to you. The University has a limited number of CAS that it can issue and due to UKVI rules that govern its status as a student sponsor, the University will only assign a CAS where it is believed that a subsequent visa application will be successful. Therefore, not withstanding your offer, the University reserves the right to refuse to assign a CAS if there is no more availability or if there are reasonable grounds for suspecting your subsequent visa application will be unsuccessful.

Once you are issued with an unconditional offer, if you are required by UKVI to demonstrate maintenance (evidence to show you have sufficient funds to cover your tuition fees and living costs), you will be required to provide this evidence to the International Admissions and Compliance Team <u>before</u> you will be considered for a CAS. We will only issue your CAS number once we are satisfied with the maintenance documents that you have provided to us. This is for us to determine that you have satisfactory evidence to submit to UKVI as part of your Student Visa application to demonstrate your funds and to mitigate the chance of your visa being refused. Please check tees.ac.uk/international/immigration for guidance on the University's process for assigning a CAS.

LETTER OF RECOMMENDATION.

I am pleased to recommend Mr. C. DURGA REVANTH REDDY for the Master's Program in your university. I have known him for the past three years teaching him courses in Applied thermodynamics, Thermal Engineering and Production Engineering respectively. I have also supervised his laboratory work for these subjects. During this time, I have had interactions with him on an academic and personal level. What struck me instantly was his commitment to his work and his desire to achieve excellence in whatever he undertakes.

In all my classes, he has been an active participant in classroom discussions and has excelled in all the subjects that I have taught him, constantly securing above 73 percent. He has always submitted his assignments and project reports well before deadlines and he is well focused with a keen interest in the practical application of the subject. His habit of relating everything taught in class with the everyday applications has strengthened his base. Hence, his knowledge of the subjects of Applied thermodynamics, Production Engineering is extremely thorough.

Doing well academically has not limited his involvement in other sectors. He has successfully been part of the student council as the cultural secretary of the college and has represented college and organized events and festivals exceptionally well. He is also an excellent sportsman representing the college in sports like Cricket and Volleyball.

I believe that he's strong hold on the subjects of fluid mechanics, thermodynamics and heat-mass transfer will hold him well in his stride. He has spoken to me in detail about his plans to pursue an MS in Mechanical Engineering and I believe he has the required knowledge and skill set to excel in this course. Also, his well-rounded personality as a result of the variety of his experiences as the cultural secretary of the college will make him an asset to your organization. He will do well in this course and will blend well into the new environment. Hence, I strongly recommend him for admission into your university.

Dear Gopal:

Congratulations and welcome to California State University, Chico! You have been accepted into our Computer Science master's degree program for the fall 2019 semester. Your student ID number is 010369698 and should be used for all future correspondence with the University.

New student registration week is July 29 – August 8 and registration fees are due by July 31. You can check your registration date and time through your Portal about a week prior to registration week. Please contact your Graduate Coordinator if you need assistance with selecting or adding classes.

Mandatory International Student Orientation will be held **August 20 – 22, 2019** and fall classes begin on August 26. If you were admitted prior to bachelor degree completion, you will be required to provide an official final transcript and/or mark sheets and degree certificate. The required documentation must be received prior to registering into your next semester classes.

Instructions for submitting your *Intent to Enroll* electronically, along with other valuable information, can be found in the enclosed admission booklet.

Graduate study differs considerably from the undergraduate experience in that you will be expected to work independently and at the same time consult closely with key faculty. Please work with your Graduate Coordinator to develop a course of study within the first year of your graduate career. The *University Catalog* and the *Guide to Graduate Studies* will provide detailed information about the various requirements for the master's degree. It is recommended that you submit your *Master's Degree Program Plan* to the Office of Graduate Studies after completing approximately 12 units of course work toward the master's degree.

Organizing Chairman, GATE 2019
(on behalf of NCB - GATE for MHRD)

The GATE 2019 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q)\frac{(M - M_q)}{(\overline{M}_t - M_q)}$$

where,
M is the marks obtained by the candidate in the paper, mentioned on this GATE 2019 scorecard
M_q is the qualifying marks for general category candidate in the paper
$\overline{M}_t$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
$S_q = 350$, is the score assigned to M_q
$S_t = 900$, is the score assigned to $\overline{M}_t$

In the GATE 2019 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.
