Department	Humanities & Sciences	Year/Semester	I/I- Sem (All Branches)	
Course Name	Linear Algebra and Calculus	Course Code	2021102	Date: 06-05-2022

**Committee Members::**

S.No.	Name	Role	Designation	Signature
1	Dr.G.Radha	Coordinator	Associate Professor	<i>G. Radha</i>
2	Sri.Y.Sateesh Kumar Reddy	Member	Assistant Professor	<i>Y. Sateesh Kumar Reddy</i>
3	Sri.G.Sreedhar	Member	Assistant Professor	<i>G. Sreedhar</i>

Purpose / Objective	Problems Identified	Result Analysis		Suggestions for Improvement
		Strength	Weakness	
1. To check the Uniform Coverage of syllabus according to the External Examinations. 2. To overcome the shortcomings from students' point of view, in previous meeting.	1. There is some difficulty in explaining some type of problems.	1. Usage of <b>YOUTUBE</b> videos for explaining difficult topics. 2. The related text books and solved problems are sent before commencement of topics to be covered. 3. Course material/handouts are given before / after class.	1. Difficult to draw the polar curves in the class. 2. Difficult to understand the change of variables in the class.	1. To overcome the above weaknesses by revision classes. 2. Explained real time examples.

Purpose / Objective	Problems Identified	Result Analysis		Suggestions for Improvement
		Strength	Weakness	
1. To give the importance of back ground of basic concepts in the Engineering Chemistry Subject. 2. To evaluate the significance of subject and to understand the fundamentals of chemistry and its principles. 3. To check the Uniform Coverage of syllabus according to the Internal Examinations.	1. Explanation of total hardness, electrode potential and HCV and LCV problems was difficult. 2. Explanation of basic principles for every unit takes lot of time. 3. Explanation of derivation part takes more time.	1. To revise the some topics which are difficult. 2. Some topics explained chart form in the black board for student understands purpose. 3. The related text books and solved problems are sent before commencement of topics to be covered. 4. Course material/handouts are given before class. 5. To focus on students who are less marks in I mid exams.	1. In the subject, we have observed chemistry derivation topics and mechanism of polymers to explain at least two times. 2. Difficulties were observed when the write up of drawing of diagrams.	1. Extra tutorial hours taken to explain the basic concepts/problems. 2. Taken revision classes to how write exam, get good marks and covered all important topics
