INTERNATIONAL DAY OF MATHEMATICS 2K21

March 14th, 2021

IMPORTANCE OF INTERNATIONAL DAY OF MATHEMATICS:

Mathematics makes our life systematic and prevents chaos. Certain qualities that are nurtured by Mathematics are power of reasoning, creativity, abstract or spatial thinking, problem-solving ability and effective communication skills. Every year, March 14th is observed as International Mathematics day. March 14th was chosen as the date for the International Day of Mathematics because it was already celebrated in many countries as Pi Day, based on the fact that some countries write it as 3/14 and the mathematical constant Pi is approximately 3.14.

In this connection, the Department of Humanities and Sciences organised (IDM) an event in Civil Seminar Hall between 3pm and 4pm on 13th March, 2021. Mainstay of this event was Asst. professor K.
